1. Introduction & Background

Sex and Gender Specific Health (SGSH) is inviting you to submit a proposal, in response to this Request for Proposal (RFP), for a team based learning case with a sex and gender difference focus for publication on the SGSH website.

The objective of this Request for Proposal is to share on the SGSH website a variety of examples and methods for integrating sex and gender difference into new or existing team based learning cases from diverse institutions and contexts. Certain criteria will form the basis of our selection decision, as more fully described in the Submission Guidelines & Requirements and Evaluation Factors sections of this Request for Proposal below.

2. Submission Guidelines & Requirements

The following submission guidelines and requirements apply to this Request for Proposal:

1. Proposals will be considered from medical schools as well as schools of nursing, pharmacy, allied health and other schools of health professions education.
2. Each submitted case should have a sex and gender difference focus.
3. Each submitted case should have a team based learning context (IPE not required).
4. Proposals must be signed by a representative that is authorized to create curricular content for the affiliated institution.

3. Evaluation Factors

Sex and Gender Specific Health will review each submission based on the above described criteria. After review, the representative submitting the case will be notified of one of the following:

1. The case has been accepted for publication on the SGSH website
2. Revisions are requested
3. The case does not fit the requirements/needs of the SGSH Program.

Sex and Gender Specific Health reserves the right to accept submissions that best fit the requirements/needs of Sex and Gender Specific Health as determined solely by Sex and Gender Specific Health in its absolute discretion.
